August 2020 CINA Annual Meeting.

Virtual Event: Transaction Laundering and the Facilitation of Cybercrime

Virtual Event: Social Outlaws - What Network Analysis can Tell Us About Gangs

CINA Welcomes 2021-21 Open-RFP White Paper Submissions

In 2019, CINA received 47 submissions to our annual RFP, and we have received eight submissions in the first three months of our rolling Open RFP. As we prepare to release our next RFP White Paper in December 2020, we want to say thank you to all who continue to help us maintain a competitive research environment. We are grateful for the support of our community.

This engine of innovation and future impact is no accident, but rather the product of a center conceived with a clear purpose and strategic, thoughtful decisions over the first three years of community. The CINA team was formed with a focus on establishing the center as a leader in innovating the use of data and science to improve homeland security and law enforcement. Over the past three years, the center has achieved a number of notable milestones.
