**Virtual Learning while Teleworking, Not an Easy Feat:**

**We know that COVID-19 can be deadly (my sincere condolences to you who have had to face tragic losses of friends and family over the past year); we know an online format of virtual learning can occur (although I know that many of us also have to help keep our university learning environment one of the safest in the nation (thank you to all who did their part to make that happen). We know that COVID-19 can be deadly (my sincere condolences to you who have had to face tragic losses of friends and family over the past year); we know an online format of virtual learning can occur (although I know that many of us also have to help keep our university learning environment one of the safest in the nation (thank you to all who did their part to make that happen).**

**So what can we do to stay healthy and well? Here are some suggestions.**

**To the World Health Organization (WHO), health is defined as being “a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.”**

**In this context, wellness is defined as: “the act of practicing healthy habits on a daily basis to attain better physical and mental health outcomes, so that instead of just surviving, you’re thriving.**

**To understand the significance of wellness, it’s important to understand how it’s linked to health. According to the WHO, health is defined as being “a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.”**

**The National Center for Complementary and Integrative Health defines wellness as: “the act of practicing healthy habits on a daily basis to attain better physical and mental health outcomes, so that instead of just surviving, you’re thriving.**

**The winter break to rest up and take care of ourselves, restoring our energy for this semester. For honestly, we know that COVID-19 can be deadly (my sincere condolences to you who have had to face tragic losses of friends and family over the past year); we know an online format of virtual learning can occur (although I know that many of us also have to help keep our university learning environment one of the safest in the nation (thank you to all who did their part to make that happen). We know that COVID-19 can be deadly (my sincere condolences to you who have had to face tragic losses of friends and family over the past year); we know an online format of virtual learning can occur (although I know that many of us also have to help keep our university learning environment one of the safest in the nation (thank you to all who did their part to make that happen).**

**The sustainability of Mason’s environment, education, impactful research, and meaningfully engaging our community. I suggested we use the term “wellness” as a way to define how we think about the health and well-being of our students and employees.**

**Be well**
