Focus on your horizons as you navigate through the challenges of this pandemic. It is important to maintain a sense of perspective and hope. As you reflect on your academic and professional goals, take some time to think about what you can do to make a positive impact on the world. Whether it’s through your research, teaching, or community involvement, there are many ways to make a difference.

The Mason Science newsletter will not be published the week of the Thanksgiving Holiday.

In this Issue

- Highlights from the Mason Science Student Research Conference
- New additions to the Science Cafe Series
- Delaware National Estuary Program: Mason’s role in managing Chesapeake Bay
- CMAI Immersion Program: Developing new talent in mathematics, statistics, and data science
