Experience conducting undergraduate research in anadromous fish migration.

Read May 2020 graduate, Katie Russell's account of her experience conducting undergraduate research in anadromous fish migration:

*Photo courtesy of Katie Russell and Jessica Twydell.*

**Program.** The research focuses on river herring, two species of fish that spawn in freshwater streams and migrate to the ocean as juveniles and adults. The research aims to understand the factors influencing river herring populations and their persistence in freshwater habitats.

---

**Undergraduate research in community.** By participating in undergraduate research, students can gain valuable hands-on experience, develop critical thinking skills, and contribute to real-world solutions. Research opportunities are available in various disciplines, including environmental science, computer science, and engineering.

---

**COVID-19 Survey.** The university is conducting a student-centered survey to assess the impacts of COVID-19 on students' lives. Faculty are encouraged to share the survey link with their students and remind them that the deadline to complete the survey is Friday, December 4.

**User experience testing.** Students in the psychology course - have received IRB approval for a student-centered survey on how COVID-19 has impacted their lives. The survey focuses on the psychological and social impacts of the pandemic.

---

**Science Cafe.** Get COVID-19 answers at the Science Cafe, held every Thursday at noon. This interactive event features experts discussing the latest research and providing accurate, up-to-date information.

---

**Fuller Hall Lecture Series 2020-2021.** This year's Fuller Hall Lecture Series includes a variety of speakers and topics, such as environmental sustainability, social justice, and emerging technologies.

---

**Career Connections Faculty Award.** This award recognizes faculty who have had a significant impact on student and alumni career development. The 2020 award winner is Karen Akerlof, professor of psychology.

---

**Message from the Dean.** Fernando R. Miralles-Wilhelm discusses the importance of kindness and community in these challenging times.

---

**Focus on your horizon.** In a review paper recently published in the *Journal of the American Medical Association*, the authors emphasize the importance of long-term planning and decision-making in the face of uncertainty.

---

**Stay Connected.** Follow us on Facebook, Twitter, and Instagram for updates on upcoming events and news.

---

**Newsletter Schedule for Final Weeks of Fall 2020.** The College of Science newsletter will not be published the week of the Thanksgiving Holiday. The last issue of 2020 will be published Thursday, December 17, and the first newsletter of 2021 will be published on January 7.
