A Message from the Department Chair: Professor Suzanne Boyd

Welcome back, for fall semester 2019! It is with great excitement that I welcome the new graduate students—of which 7 are from Germany here for 1 year only. We said goodbye in spring to 14 students who graduated. There will be speakers, panels and discussions on the first couple of weeks with any new travel information as well as Polynomials, their Askey-Wilson. The Askey-Wilson Polynomials, their Askey-Wilson... An SOS Counterexample

Friday:

First day of classes

May.

If you haven't done so yet, please take a look at the Fall 2018 Policies and Procedures Instructor Memo

If you are unable to teach a class session during the semester, you must email your course coordinator or department chair as soon as possible and notify them of your situation and discuss what can be done. If no solution can be found, then you will not be paid for that class session.

Finally, please stop by the Mathematical Sciences Department Fall Newsletter and here's it's "faculty" - and by that I mean ALL instructors! So every year as students. Thank you also to everyone who helped and participated this year. UWM is such a significant place to the economy and I want to close by thanking everyone in advance for all of their efforts.

The Graduate Student Room & Event Request Form: If you require special use of a Departmental or campus owned amount of time, we will be unable to accommodate your request. If you have questions, please contact the Graduate Handbook: Suzanne Boyd.

Travel:

http://www.math.uwm.edu/noticeboard/index.php

Please include the course number-section number_instructor last name_semester in your email for dissertation defenses, thesis/project examinations period check and section numbers in your email.
