Anti-Racism and Inclusive Excellence (ARIE) Task Force Funding Announcement

The Office of Research Innovation and Economic Impact (ORIEI) in collaboration with the Anti-Racism and Inclusive Excellence (ARIE) Task Force is excited to announce the first annual ARIE Seed Funding Initiative. The ARIE Seed Funding initiative emerged as one of the recommendations from the ARIE Research Working Group and funded by the ARIE Task Force.

This funding will support research, scholarship and creative activities addressing the myriad issues on the theme of anti-racism and inclusive excellence. Projects may be either highly scholarly or highly practical/applicable. The full Call for Proposal can found on the Research Development website under "Funding Opportunities."

- Proposal Due Date: June 30, 2022
- Funding Decisions: August 15, 2022
- Funding Limit: Two tiers: Up to \$25,000 and Up to \$50,000
- Duration: 12-18 Months

ORIEI will be holding an Informational Q&A on Wednesday, May 18, 2022 12 - 1:30 pm ET. The link to the Zoom meeting is <https://gmu.zoom.us/j/92242188578>. Please feel free to send any questions you have in advance to resdev@gmu.edu.

C-RASC Biannual Membership Meeting

Tuesday, May 10, 2022, 1pm - 3pm ET via Zoom

Registration

Are you interested in creating life-changing social and economic opportunities to support global communities through locally led resilience and sustainability initiatives? You're invited to join a virtual Biannual Membership Meeting hosted by the Center for Resilient and Sustainable Communities (C-RASC) on Tuesday, May 10, 2022 from 1pm – 3pm EST!

C-RASC is one of Mason's transdisciplinary research centers. We focus on partnering with communities to develop solutions to resilience challenges. We want to engage scholars, students, practitioners, and everyone in between. We work with partners in a variety of sectors

(e.g., public, private, nonprofit) conducting research that addresses such global and hyper-local issues as flood hazard resiliency, broadband, health systems, decarbonization and road maps, cyber protection, climate financial risk, and more. Our team is composed of faculty, students, scholars, and practitioners from fields such as engineering (all types!) and computing, geospatial information systems, public health, cybersecurity, logistics, conflict analysis and resolution, foreign policy, public policy, sociology, and public administration, to name a few.

After registering, you will receive a confirmation email containing information about joining the meeting. Contact crasc@gmu.edu with any questions. To learn more about C-RASC, visit: <https://c-rasc.gmu.edu>.

The Institute for a Sustainable Earth (ISE) aims to connect members of the Mason community with others across the Mason community—and with other communities, policy-makers, businesses and organizations—so that, together, we can more effectively address the world’s pressing sustainability and resilience challenges.

The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and research pertaining to environmental science and sustainability. The biweekly newsletter aims to facilitate information sharing among researchers, practitioners, and relevant local, national, and international organization.
