Announcements

New Feature: Oracle PPM Cost Transfers Launching December 14
A cost (expense) transfer occurs when expenses are moved from one accounting distribution to another after they have been recorded in Oracle Financials (OFC). The new Oracle PPM cost transfer functionality will allow users to initiate transfers for transactions from Project to Project, Single Project from one Task to another Task, Single Project from one funding source to another, and Non-Projects to Projects and vice versa.

The following resources are available for you to learn the new cost transfer process:

- Watch the Cost Transfer Role Mapping Webinar for an overview of the Oracle roles needed to initiate or approve cost transfers
- Attend a University Cost Transfer training class
- Attend office hours for cost transfer support starting December 18

Check Out the New 'Known Issues' Tracking Site
Track known issues on the Finance Systems Status page, where we provide a one-stop-shop to view and track known issues, provide status updates, share what you need to know, and how you can help. The goal is to save you time from researching or submitting support tickets for pending resolution issues!

Upcoming Release: Oracle Planning and Budgeting Go-Live
The Financial Information System project team is excited to announce the upcoming release of Oracle Planning and Budgeting in late January 2021! This new system will make way for a bottom-up budget development for UC San Diego delivering a thoughtful design and uniformity across budgeting
Not sure if you're responsible for preparing the budget for your Financial Unit in the Oracle Planning and Budgeting system? Please see this preliminary list of VC Budget Preparers.

Virtual instructor led system training for Campus budget preparers will be available in late January. To prepare for training, visit Budget & Finance Training Courses and take the 5 short Budget ecourses under 'Fundamental eCourses' (will take less than an hour for all 5) to get a sneak peak of the Oracle Planning and Budgeting tool. Stay tuned for future communications with training registration information.

Oracle and Concur Access De-Provisioning
Please be aware that user roles and access need to be reviewed by department managers and administrators across the University community periodically. To support the review and de-provisioning process, we have developed some resources available to you:

- Check the Campus User Roles Report to see what access users have
- Use the Oracle and Concur Role Removal Request form to request roles to be removed when a departmental user separates from employment or transfers to another department
- Attend office hours on Tuesdays at 9:30am to have your questions about roles and access answered
- If you are not familiar with the roles for department users, then please read the article on How to Determine the Oracle & Concur Roles Departmental Preparers Need

---

**Training & Engagement Resources**

**University Cost Transfer Training**
Register for an upcoming University Cost Transfer training which provides a general overview of the various types of cost transfers, uses, and system navigation. Topics include how to initiate & approve cost transfers, view cost transfers in OFC, and more!

Register for Monday, December 14, 2020 @ 1:30pm - 3:00pm
Register for Wednesday, December 16, 2020 @ 9:00am - 10:30am
Payment Compass Webinar
IPPS will host a second virtual in-person webinar on Payment Compass registration. Topics will include Payment Compass functionality, the invitation process, and the registration process. Sign up for the course via this link or by searching Payment Compass Webinar in UC Learning.

Special Finance & Reporting Webinar

Wednesday, December 16 @ 11:30am - 12:30pm
https://ucsd.zoom.us/j/92802287670

BI & Financial Reporting Updates

Budget & Finance Reports Now Available @ reports.ucsd.edu

We are excited to announce that the Budget & Finance space within reports.ucsd.edu is underway, and we have added two reports: General Ledger Detail Report and the new Project Balances with Expenditure Details Dashboard! Special thanks to Eva Thiveos and Irvin Palacios for their development efforts on these reports.

New Project Balances with Expenditure Details Dashboard
The new Project Balances with Expenditure Details Dashboard provides:

- Project and task budgets, raw costs, committed costs, revenues, and remaining budgets by expenditure category
- Summary and transaction details for project expenditures, committed costs, and revenues done at the sub-ledger level
- Dashboard insights for all project types

This dashboard will be especially helpful for department users. For report details see Knowledge Base Article (KB0032937): How to run and view Project Balances with Expenditure Details.

Enhanced General Ledger Detail Report
The General Ledger Detail report has been enhanced to include new drill down functionality so users can trace from General Ledger summary level detail back
to detailed transaction line item information and original source documentation view. Find multiple level financial and accounting information from this single report. For report details see Knowledge Base Article (KB0032936): [How to Run General Ledger Detail Report](#).

For any suggestions on enhancements please submit a ticket and our developers will check the feasibility of the enhancement.

---

**Partner Messages**

**UCPath System Outage**

Starting Wednesday, December 9 at 10 pm to Monday, December 14 at 6 am the UCPath system will be unavailable to all UC employees during the Amazon Web Services (AWS) cutover. During this outage, **you will not have access to the UCPath system**, but UCPath Center phone access will be available as normal: 855-982-7284 (Mon - Fri: 8 am - 5 pm).
