Fiscal Close Bulletin Update
Because of yesterday's Memorial Day Holiday, the next Fiscal Close Bulletin will be released next Monday, June 6.

Timely updates will be posted on the Fiscal Close Updates Blink page.

Upcoming Departmental Action Deadline
This Friday, June 3 (end of day) is the last day to submit Travel Expense Reports associated with foreign wire payments for June posting. Be sure to include the required documentation and final departmental approval. For more information, please refer to the How to Process a Travel Wire KBA.

Announcements

New Release: Generate PPM Invoices
Launching on June 1, Users will have the ability to individually Generate PPM Invoices per PPM Contract. This will be time-saving for users that create an event and need to invoice immediately or when multiple events created in a single day require individual invoices. View the 05/20 Financial Operations Office Hours and the Knowledge Base Article (KBA) Creating a Billing Invoice in Project Portfolio Management (PPM) for more information.

New Release: PADUA 2.0
Launching on June 1, Project and Award Data Update Application (PADUA) 2.0 will be live for campus users. This initial release will allow updates to Project elements such as Project Personnel, Name, Classification, and Reporting Category. This launch also allows users to create new General Projects without submitting a ticket! Future releases will allow task updates, award updates, and mass updates.

Only authorized users will be able to create and edit general projects.

- To grant users access, please complete this form. After go-live, access will be granted as requested through the Oracle Role Request Form.
- For more information watch this linked PADUA 2.0 Demo and review the How to Use PADUA 2.0 KBA.
- Please attend the Fund Management Office Hours this Thursday, June 2 to observe a live demonstration of PADUA 2.0.

New Release: Approve AP Invoice Holds
Launching on June 6, invoices greater than $100 that are on hold due to amount or quantity discrepancies between the invoice and the Purchase Order will be routed to the Requester referenced on the Purchase Order for approval. A walkthrough of the steps required to approve or dispute an invoice hold are outlined in our newest KBA, How to Resolve an Accounts Payable Invoice Hold.

Sponsored Project Agency Billings Update
With the launch of several new or upgraded reports, sponsored project agency billings require less manual work to be done by Research Administrators (RA) and Fund Managers (FM). While some level of customization – depending on sponsor specifications and needs – will be required, reports should be much faster and easier to create by leveraging the following reports on the Business Analytics Hub:

- DOPE - Sponsor Report
- Project Balances with Expenditure Details Dashboard (PBED)
- Project Costs Detail Report
- Expanded Project Summary

FM's are encouraged to use pivot tables in Excel to streamline the reports they need to generate for sponsors. Pivot table training will be added to June’s RA Training Bootcamp. For more information, please refer to ID#33 on the Chancellor’s ESR FIS Advisory Committee Main Issues List for tracking purposes.

Journal Entry and Department Delegated Purchasing Authority No Longer Restricted
Previously, a user could not have the ability to both create a journal entry, and create a requisition up to $500, $2500, or $5000 without requiring Financial Unit Approval. This functionality has now been updated, and users can have both Journal Entry access and Department Delegated Purchasing Authority if appropriate and approved. To request adjustments to your current access, please submit a new Oracle and Concur Role Request through Services & Support.

- New prompts added for L4 Financial Unit, Receipt Number, and Student PID.
- Financial Unit prompt is now a checkbox list, enabling users to select multiple financial units. Use your browser search function (Ctrl-F) to find a financial unit by number or name.
- Batch has been added to the GL Transactions table.
- New links have been added on receipt numbers and batch codes to take you into the relevant Oracle screens.

**Enhancements: Accounts Receivable Panorama - Incoming Payments (Receipts)**
The following enhancements have been released on the Incoming Payments report on the Accounts Receivable Panorama:

- Receipt Number and Receipt Comments are "contains" searches: Enter partial information (i.e. check number, customer name, contract number, PI name, protocol number etc) in either of these prompts to find receipts related to the information entered.
- Two table options: 'No Accounting Details' table returns one line per receipt and removes merged cells, while 'With Accounting Details' provides the account and financial unit associated with the receipt.

See [Incoming Payments (Receipts) Report](#) on Blink for more information.

**Upcoming Report Release: Contract Management Dashboard**
A new Contract Management Dashboard in final stages of development will include four new reports:

- **Sponsored Contract and Project Summary**: provides summarized funding, revenue, invoice, and payment amounts for sponsored contracts and associated projects.
- **Non-Sponsored Contract and Project Summary**: provides summarized contract, revenue, invoice, and payment amounts for general projects and associated contracts.
- **Invoicing and Payment Details**: provides detailed information on PPM, SPARCM, and OFC invoices associated with contracts along with payment and chartstring information.
- **Receipt Details**: provides detailed receipt information for receipts applied to OFC invoices.

Release of this dashboard was originally scheduled for May 31, but **has been delayed to June 28** due to several unforeseen circumstances.
