The Institute for a Sustainable Earth (ISE) is a leading global research and education institution dedicated to addressing the world’s pressing sustainability and resilience challenges. ISE faculty, students, and practitioners, along with relevant local, national, and international organizations, are working together to develop innovative solutions to complex environmental issues.

ISE NEWSLETTER

Winners will travel to Iceland for a six-day voyage with Lindblad Expeditions aboard the National Geographic Endurance. This trip is the first offering of Planet Forward’s 9th Annual Storyfest Competition.

Applications for the Global Sustainability Scholars program are being accepted through December 16, 2022. This fellowship program is designed to support talented undergraduates in conducting research on sustainability issues. Fellows will be provided with up to $15,000 in funding, travel expenses, and the opportunity to present their findings at a national conference.

The Defense Advanced Research Projects Agency (DARPA) Young Faculty Award (YFA) program is now accepting applications through February 1, 2023. This program aims to fund research that addresses critical challenges in national security. Selected awards will provide up to $750,000 in funding over three years.

The ISE Newsletter is a platform for researchers and practitioners to share their work with a broader audience. To learn more about upcoming events and research projects, please visit the ISE website or subscribe to the newsletter.
