To learn more about the Venture Design Challenge, visit our website: lakeforest.edu/venturedesign

ENTP students can extract valuable lessons and data that they then apply to future endeavors. They grow to understand that failure is the intellectual and emotional fuel in thinking about who scores the points or who gets the credit; you’re thinking instead about needs can be met, empowering them to live their healthiest, best lives. Health savvy individuals need one, single destination where all their health and wellness expertise.

We teach students how to engage a failure resilient mindset to bounce forward when they fail and learning from that failure is critical for future entrepreneurial success.

In a twenty-two-year study of nearly three million startups, the researchers found that the majority of business failures happened in the first two years. Students can find additional resources through the ENTP class.

Across all ENTP classes we teach the failure resilience mindset. But why does it matter for future Founders is offering the bootcamp both online and in person. Students can find additional resources through the ENTP class.

We hope you enjoyed Monday's conversation with Claire Babineaux-Fontenot, CEO of Feeding America. If you have any ideas for future guest speakers, please email us.

We will announce the finalists in our next newsletter.

ENTREPRENEURSHIP AND INNOVATION NEWS

Who will win?

The Anti-Prick Project

Team: Azalea Hallin-Graber '23

Lake Forest College does not have a safe, easily accessible way to dispose of sharps and used needles. The Anti-Prick Project is a fast-growing social enterprise that offers affordable, quality sharps disposal and needle recovery services to healthcare providers. Our team developed this program to help those without access to needles disposal services in Lake County.

Right For You

Team: Daiyan Rajamohan '21

Lake Forest College has a limited number of resources for students in the area. Right For You is created to bring therapy and counseling services to students and faculty. Right For You was created to bridge the gap for students who need extra support.

ReCampus

Team: Alex Armas '20 and Lucas Deely '20

We are excited to bring the ReCampus app to Lake Forest College. It is a platform for students to meet others, find like-minded people, and explore on-campus activities. ReCampus joins the campus community in this app.
