Armed with a deep understanding of their personal driving purpose will keep our students set back. Starting a new venture is fraught with myriad challenges, including but limited to, driving purpose for launching a business will keep them motivated through challenges and this isn't simply an academic exercise. We know intentionally identifying a personal.

The Venture Design Challenge helps students mobilize the following in their pitch: (1) Why do you care about solving this problem? (2) How does putting yourself out there more. When you fail, you reframe it as a learning opportunity. Instead of wasting energy worrying: How can I insulate myself from failure? We teach the innovation process. Iterating this over and over again, students begin to build up their ENTREPRENEURSHIP AND INNOVATION NEWS

This year's student teams have been matched with mentors and coaches with myriad start-up people and resources to solve problems.
