Future Founders' Startup Bootcamp

To learn more about the ENTP program, visit our website.

ENTP students can extract valuable lessons and data that they then apply to future ventures. A failure resilient mindset is one of the most critical skills students need to succeed. The failure resilience mindset is the ability to bounce forward when you fail. In ENTP, we teach students how to engage a failure resilient mindset to bounce forward when they fail. We help our students make the connection that achieving success means trying more and taking more shots at the goal.

For this reason, in ENTP we teach our students to accept and expect the reality of failure. Instead of wasting energy worrying: How can I insulate myself from failure? We teach students how to engage a failure resilient mindset to bounce forward when they fail. Valuable learning is your reward for failing. Students can find additional resources through the Entrepreneurship Advisory Council member Beth Marsh, Cheryl Ashley, Brandon Berish, and shortened lives.

People in the U.S. located around polluted areas need a way to protect themselves from exposure to particles, harmful chemicals and radiation. A&M’s Future Founders is offering the bootcamp both online and in person.
