To turn off Google Chrome’s Autofill feature:

- Chart string value when creating a Request, Expense Report, or Allocation.

After clicking into the form field, the autofill will clear after you start typing in the entry, but these selections do not transfer to Concur.

The Autofill feature will display values to facilitate data entry.

Google Chrome’s Autofill feature might interfere with entering your chart string value in Concur.

Tips & Tricks

Please note that you can also search “Concur” in the UC Learning Center to view instructional videos and articles for both Concur Travel & Expense and Concur PPM.

- To view taxability of order in Oracle Procurement:

  - In your shopping cart, scroll down to the tax section.
  - Initially view the workflow.
  - Select the tax field.
  - Click the check box to view the tax associated with your order.
  - If you change the taxability of any of the items in your cart, the tax will not be recalculated. To recalculate the tax amount by clicking the recalculate button.
