Concur KBA

For more information on Concur Alerts, refer to the Red vs. Yellow Icon Alerts in Concur. Please attach supporting reports from Oracle to the case. This will assist the team in making an informed decision.

For Service & Support tickets, for questions related to balances or transactions, funds statuses, and essential purchasing and payment terminology.

The link to the application form is here. For those that cannot attend.

Each Tuesday, the Weekly Digest provides important updates related to Oracle Procurement Glossary Blink page.

You must change or remove the expense in order to resolve the Red icon alerts. The expense report cannot be submitted. You may proceed with completing and submitting Yellow icon alerts.

Please provide all necessary information in the comments section.

Since this is a test environment, data may not be the same as in production.

Non-Production Environment - VPN and SSO are required.

* You can view the upcoming Oracle Redwood UI changes in the Oracle Test Non-Production Environment. The Oracle Redwood theme is a UI change only, and does not impact performance of the system:

What is not changing?

- No changes to the data within the Oracle applications
- No impact to any integrations or external systems
- No impact to any scheduled processes
- No changes to the Oracle with consolidation capabilities
- No impact to eBusiness Suite or the FDMSS application
- No changes to the data governance and security infrastructure

What is changing?

- Dark, global header
- Slightly darker background
- Automatic calculations
- No impact to any integrations or external system
- No changes to the data within the Oracle applications
- No impact to any scheduled processes
- No impact to eBusiness Suite or the FDMSS application
- No impact to any integrations or external systems
- No changes to the data governance and security infrastructure

The key benefits of this reconfiguration include, but are not limited to:

1. The basic concepts of resource commitment tracking remain the same, and users will not be able to log into EPBCS production (Planning) environment nor preview session will be recorded and uploaded to the Event Calendar.
