Red vs. Yellow Icon Alerts in Concur

For Service & Support tickets, for questions related to balances or transactions, ready-to-use reports, or budgeting, Oracle Financials Cloud will support you. A list of Opportunity alerts is generated in the Expense Report.

For Service & Support tickets, for questions related to balances or transactions, ready-to-use reports, or budgeting, Oracle Financials Cloud will support you. A list of Opportunity alerts is generated in the Expense Report.

No need to worry about requests when submitting a Request or Expense Report; the expense can be submitted. You may proceed with completing and submitting the Expense Report.

Also, if you decide to cancel an expense submission, your action will be processed at the time you click "Cancel" and not the end of the day. If you want to cancel the cancelation, you can do so until the expense gets in the list of transactions for payment. Only then, the expense is closed and you cannot cancel anything else.

You have the flexibility to create multiple opportunities for each expense report to evaluate the replaced charge before submitting. The required fields in the Expense Report are: Product/Service, Description, Amount, and Replacement Cost. These fields can be updated at any time until the expense is submitted. If you want to change the replacement cost, you can do so until the expense gets in the list of transactions for payment. Only then, the expense is closed and you cannot cancel anything else.

For Service & Support tickets, for questions related to balances or transactions, ready-to-use reports, or budgeting, Oracle Financials Cloud will support you. A list of Opportunity alerts is generated in the Expense Report.

Instructor-Led Training sessions, and Hot Topics. Be sure to try out the different calendar views for the Procure-to-Pay and Travel & Expense spaces. There will be a chance to view the upcoming Oracle Redwood UI changes in the Oracle Test Non-Production Environment.

For Service & Support tickets, for questions related to balances or transactions, ready-to-use reports, or budgeting, Oracle Financials Cloud will support you. A list of Opportunity alerts is generated in the Expense Report.

Stay tuned for more information. We thank you for your continued support!

Oracle Redwood Theme Changes

The Oracle Redwood theme is a UI change only, and does not impact the Oracle Redwood theme.

What is changing?

2022, after the Winter Break, UC San Diego will introduce Oracle's Redwood theme. In January 2022, changes to the Oracle Sign In page were communicated as part of the Oracle Redwood theme.

What is not changing?

In July 2021, changes to the Oracle Sign In page were communicated as part of the Oracle Redwood theme.

A shift from icons to tabs on the Oracle homepage

Overall coloring using a different color palette, layout, look and feel:

Other page elements, icons, and text are updated

No impact to any integrations or external system

No changes to the data within the Oracle applications

No changes to the underlying database

What to expect:

A simple functional experience

Enhancements in the usability of the Redwood theme

Improved display and performance of the system:

The Oracle Redwood theme is a UI change only, and does not impact the Oracle Redwood theme.
