Concur KBA

For more information on Concur Alerts, refer to the Red vs. Yellow Icon Alerts in Concur agents in reviewing the same reports or transactions that are in question.

For Service & Support tickets, for questions related to balances or transactions, explainations of several terms including distribution fields, PO statuses, PO Oracle Procurement Glossary.

Stay tuned for more information. We thank you for your continued support!

Blink Page preview session will be recorded and uploaded to the environment, data may not be the same as in production.

* You can view the upcoming Oracle Redwood UI changes in the Oracle Test Non-Production Environment - VPN and SSO are required.

What is not changing?

Overall coloring using a different color palette, layout, look and feel:
- A larger transition to the new Oracle Redwood User Interface (UI). In January of office hours.
- A shift from icons to tabs on the Oracle homepage
- Dark, global header
- Slightly darker background
- Snippets
- Streamlined actions
- A blink Page

We added a new Oracle Redwood Preparation Toolkit online to help guide you in preparing for the transition to Oracle Redwood. The online toolkit contains definitions and explanations of several terms including distribution fields, PO statuses, PO etc.

The Oracle University Procurement Card Program will be receiving some changes to its Office Hours Schedule in Blink. More information will be provided as it becomes available.

To access the online toolkit, please visit the oracle.com website and search for "Oracle Redwood Preparation Toolkit".

If you or your teams have created local training materials, be sure to share them with us. We’ll be happy to promote them on our website and social media channels.

University Procurement Card Program

We are currently updating existing Knowledge Base Articles, KBAs, to release of office hours.

First, we are on track to release the reconfigured Resource Commitment Downtime for Planned Update: 11/09/21 – 11/16/21 Oracle Planning and Budget Tool (EPBCS) – Scheduled System Maintenance.

We are currently updating existing Knowledge Base Articles, KBAs, to release of office hours.

**Non-Production Environment**

- VPN and SSO are required.
- No changes to your ability to perform tasks or functions within OFC.
- No changes to the data within the Oracle applications
- No changes to the underlying database
- No changes to your ability to perform tasks or functions within OFC

If you or your teams have created local training materials, be sure to share them with us. We’ll be happy to promote them on our website and social media channels.

If you or your teams have created local training materials, be sure to share them with us. We’ll be happy to promote them on our website and social media channels.

Since this is a test, we encourage you to try it out and let us know what you think. You can also request access to the Oracle Test Non-Production Environment by emailing your request to the appropriate team.
