Announcements

Starting today, we are opening up our IPPS Advisory Committee (IAC) to evaluate membership for the next fiscal year. This week, we announce the release of a new Transaction Details report, which can be used for high-risk ledger review. The report is

In collaboration with Internal Controls & Accounting and Sponsored Projects Finance, BI & Financial Reporting is happy to announce the release of a new Transaction Details report, which can be used for high-risk ledger review. The report is

This means no more having to submit transactions initiates a new project or task. In this case, the department will transfer the transaction with a link to the original transaction in Oracle to view additional cost transfer information.

Previewing upcoming developments before they’re launched

The red receipt icon will look like this: The pop up window will allow you to select the expenses that require a receipt. The Missing Receipt Declaration is only available for expenses where the red receipt icon shows. The Missing Receipt Declaration is only

Once the transaction has been added to an expense report, transactions that require a receipt will have a red receipt icon, under the receipt field.

The internal controls guidance includes a checklist with periodic control activities to be performed and certified by performers and certifiers, and it includes links to articles and Blink pages that provide instructions on how to complete the checklist. The internal controls guidance includes a checklist with periodic control activities to be performed and certified by
