Announcements

Oracle Release Updates for March 2022
- Global updates
- Global & System specific updates
- Known issues

Legacy Revenue on Sponsored Initiated Clinical Trials Has Been Fixed
- The UC San Diego Budget & Finance team has fixed a known issue on Legacy Revenue from OCTA Application on Sponsor Initiated Clinical Trials.
- The issue occurs when the Legacy Revenue on sponsored projects is not correctly calculated.
- Since the Revenue from OCTA Meetings and Sponsorship indicates a balance amount, the system has been updated to correctly calculate the Legacy Revenue.
- For businesses using the application, the update will automatically calculate the revenue.

Linde Gas & Equipment, Inc
- The supplier previously known as Linde Gas & Equipment has changed its name to Praxair.
- The change in name does not affect the terms and conditions of the contract or the nature of the products.

BI & Financial Reporting Updates
- The Support Framework is designed to help the Budget & Finance community, including faculty and staff with financial responsibilities, identify their resources based on the following questions:
  - Who is impacted?
  - What occurred?
  - How to correct the issue?

Tip #2: Oracle Reports for Trouble Shooting
- When searching in the drop-down menu for chart string and project values by the expenditure type list with the appropriate hyphens. For more information on this, please refer to Travel-In-State-(SD)
- For instance, the Expenditure Type for In-State Travel has a hyphen "-" between "In-State" and "Travel".
- To use the filter, the text description of the value needs to be entered in the appropriate filter code.
- For example, if you are using a filter to search for "In-State", you would enter "-" in the appropriate filter code.

BI & Financial Reporting
