Data Gap Identified for FY23 One-Time Budget Planning

• **What Occurred?**
  - Approved and transacted one-time commitments from the Resource Commitment Tracking Tool did not load to the FY23 budget forms as expected for planning purposes. The amounts should have been visible in the Commitment Tracking Detail column in Forms 4.3, 5.1 and 5.2

• **Who is Impacted?**
  - Select areas who were using the Resource Commitment Tracking Tool for allocation of one-time funding commitments prior to January 2022. You may be impacted if you provided the funding or were the receiving unit of the funding.

• **How to Correct the Issue?**
  - There will be a load of one-time budgets to correct for the error and units may resume planning for FY23 one-time budgets. The Campus Budget Office team will reach out to Vice Chancellor areas and budget preparers who have already finalized FY23 budget plans or have one-time budgets in risk of duplication.

**Searching for COA/POETAF Values in Concur**
When searching in the drop-down menu for chart string and project values by the **Code** filter, enter the numeric code in Concur.

When searching by the **Text** filter, the text description of the value needs to be entered in exactly.

For instance, the Expenditure Type for In-State Travel has a **Code** of **536000**, and the **Text** is **Travel-In-State-(SD)**. You would need to enter the text precisely as the description from the Expenditure Type List with the appropriate hyphens. For more information on this, please refer to our [KBA](#) on this topic.
