Opt out

Learn from Clemson researchers how the tools of data science are being used to solve problems and impact the world around us. Topics will include statistics, algorithms, analytics, optimization, and machine learning. Faculty, staff and students are strongly encouraged to attend.

Workshop to focus on the rising field of Data Science

New lecture series promotes professional development to SCIENCE students

The College of Science is piloting a new seminar series in spring 2019 intended to equip SCIENCE undergraduate and graduate students with the professional development skills they will need to find the enrichment opportunities they want across the University. Dubbed Science.SCIENCE undergraduate and graduate students with the professional development skills they will need to find the enrichment opportunities they want across the University. Dubbed Science.

Clemson researchers work with citizen-scientists to better understand diversity of rattlesnake venom

The Mojave rattlesnakes that live in the deserts of southwestern United States and central Mexico are packed with lethal venom, though they rarely strike unless provoked. Image courtesy of Travis Fisher.

Scholarship and fellowship recipients

Some of you benefit from a scholarship or fellowship established by a gift to the University. If you are one of these recipients for the 2018-19 academic year, you should have received an email requesting that you complete a Student Profile and a handwritten Thank You Note. Please check your email and complete the Student Profile on or before Jan. 31. It is important that we build on your contributions to the Clemson community and thank our donors.

As I basked in the Clemson spirit in Santa Clara witnessing our Clemson Tigers win the national championship, I heard Coach Swinney say in his interview, “We were not chasing the national championship, we were focused on being the best we could be every day.” Chasing excellence yielded perfection for Clemson Football this year.

As we set our 2019 goals, I offer you this for your consideration: “I will be the absolute best I can be – every day.” Chasing excellence yields perfection.

Perfect in every way

Your student profile helps us strengthen our culture of philanthropy at Clemson, and your help in thanking our donors is critical.

Here’s how to get started!

Science Undergraduate Engagement and Student Affairs

Go Tigers!

Have the best Spring Semester!

and friends) are ready to lock arms with you and support each other.

As you set your 2019 goals, I offer you this for your consideration: “I will be the absolute best I can be – every day.” As your professors, advisors, family, and peers push you to generate new ideas, to focus and work harder, and to be resilient in your pursuit of excellence, please remember that image of Coach Swinney and the ultra-talented team of coaches and players we have the good fortune to call our Tigers. Up next: three out of four?

College of Science joins the Clemson University family in congratulating coach Dabo Swinney and his ultra-talented team of coaches and players. Up next: three out of four?

As we relentlessly pursue excellence in science, we may not have national championships, but we do yield perfection for Clemson Football this year. As our student-athletes begin their preparations for the 2019 NCAA season, we encourage them to continue to pursue perfection in their academic and athletic studies.
