New lecture series promotes professional development to SCIENCE students

The College of Science is piloting a new seminar series aimed at students, but are also open to faculty and staff. Mondays from 5:30–6:30 p.m. in the Watt Center, room 106. Lectures are designed for students, SCIENCE undergraduate and graduate students with the professional development skills they will need to find the enrichment opportunities they want across the University. Dubbed Science Engagement and Professionalism, the seminar series will run on

Perfect in every way

In route to their second national championship in three years, the Clemson Tigers became the first team in the modern era to go 15-0, anointing the 2018-2019 squad as the “greatest college football team of all time.” The Tigers crushed the vaunted Alabama Crimson Tide 44-16 on Jan. 7 in Santa Clara, California. True-freshman quarterback Trevor Lawrence led the charge, playing Perfect in every way.

Clemson researchers work with citizen-scientists to better understand diversity of rattlesnake venom

Clemson researchers work with citizen-scientists to better understand diversity of rattlesnake venom.

The discovery that Mojave Rattlesnakes have multiple venom types that are more widespread than previously believed required a large research collaboration between principal investigators, academics, scientists and almost 100 citizen-scientists in five laboratories across the United States and Mexico. The research was published in Scientific Reports. The Mojave rattlesnakes that live in the deserts of southwestern United States and central Mexico are packed with lethal venom, though they rarely strike unless provoked. Scholarship and fellowship recipients

Some of you benefit from a scholarship or fellowship established by a gift to the University. If you are one of these recipients for the 2018-19 academic year, you should have received an email requesting that you complete a Student Profile and a handwritten Thank You Note. Please check your email and complete the Student Profile on or before Jan. 31. It is important that we build on our culture of philanthropy at Clemson, and your help in thanking our donors is critical.

Workshop to focus on the rising field of Data Science

The College of Science joins the Clemson University family in congratulating coach Dabo Swinney and his ultra-talented team of coaches and players. Up next: three out of four?
