Scholarship and fellowship recipients

Some of you benefit from a scholarship or fellowship established by a gift to the University. If you are one of these recipients for the 2018-19 academic year, you should have received an email requesting that you complete a Student Profile and a handwritten Thank You Note. Please check your email and complete the Student Profile on or before Jan. 31. It is important that we build on our culture of philanthropy at Clemson, and your help in thanking our donors is critical.

Professionalism” – the seminar series will run on

New lecture series promotes professional
development to SCIENCE students

The College of Science is piloting a new seminar series in spring 2019 intended to equip SCIENCE undergraduate and graduate students with the professional development skills they will need to be competitive in their careers and impact the world around us. Topics will include statistics, algorithms, analytics, optimization and machine learning. Faculty, staff and students are strongly encouraged to attend.

Workshop to focus on the rising field of Data Science

Workshop to focus on the rising field of Data Science

While the Super Bowl is played this Sunday in Santa Clara, California, the Clemson football team is already looking forward to what will surely be another big season in the ACC. If you are a true-blue, die-hard football fan, then you already know that the 2018-2019 football season was simply... perfect.

“Nothing is more important than the fans and the university. The fans fuel us, and there is nothing more important than being able to thank them,” said Clemson head coach Dabo Swinney.

En route to their second national championship in three years, the Clemson Tigers became the first team in the modern era to go 15-0, annointing the 2018-2019 squad as the “greatest college football team of all time.” The Tigers crushed the vaunted Alabama Crimson Tide 44-16 on Jan. 7 in the national championship game.

Then senior quarterback Deshaun Watson and head coach Dabo Swinney were named the bubbling point of the buildup. The two had worked together since 2010, and a lot of people wanted to see the “perfect storm" take place. And it did.

“It’s about having the best 23 players on the field every single week,” said Swinney. “It’s about them being the best at their position, getting their work done, and not letting the other team score. It’s about being physical and playing smart football. It’s about knowing when to run it and when to throw it. It’s about being able to make plays with your legs and your arm. It’s about being able to win games in a lot of different ways. It’s about being able to handle pressure. It’s about being able to lead a team. It’s about being able to win a championship.”

In the fifth game of the season, the Tigers defeated the Oklahoma Sooners 39-31 in the Cotton Bowl. It was the first game of the season for Oklahoma, which was ranked number one in the nation. The Sooners had lost to the Tigers the previous season, and this was the first time in almost 100 years that a team had come back from a 28-point deficit in a game.

“The Tigers were the better team, and they played better in every phase of the game,” said Swinney. “They played better on offense, defense, and special teams. They played better on paper, and they played better on the field. They were the better team, and they won the game.”

The Tigers went on to win the College Football Playoff championship game against Alabama, 44-16. The win set the stage for the Tigers to go undefeated in the regular season and win the national championship. The Tigers were the first team in the modern era to go 15-0, and they were awarded the College Football Playoff championship trophy.

The Tigers returned to Clemson after the rousing victory, and Clemson quarterback Trevor Lawrence held the national championship trophy. He was surrounded by his ultra-talented team of coaches and players. Up next: three out of four?

The College of Science joins the Clemson University family in congratulating coach Dabo Swinney and his team on their second national championship in three years. The Tigers have become the perfect embodiment of the words “perfection” and “impeccable.”

“Perfection” – the seminar series will run on

Preparing Researchers’ Engagement and Professionalism – the seminar will cover all on

It is important that we build on our culture of philanthropy at Clemson, and your help in thanking our donors is critical.

As you set your 2019 goals, I offer you this for your consideration: “I will be the absolute best I can be – every day – in the classroom, in the field, in the lab, in my life.” As your professors, advisors, family, and peers push you to generate new ideas, to focus and work harder, and to be resilient in your pursuit of excellence, please remember that image of Coach Swinney and the athletes and their families who were present in Santa Clara, California. True-freshman quarterback Trevor Lawrence led the charge, playing perfectly with his legs and his arm. The Tigers crushed the vaunted Alabama Crimson Tide 44-16 on Jan. 7 in the national championship game.
