Employee payroll deduction is an option for MetLife insurance products. For questions about the MetLife partnership, calling 1-866-700-3113 or getting an online quote from MetLife Auto & Home.

UC San Diego employees can enjoy discounted rates and help secure the best rates for their travel needs. Back to Business Travel Tips from Balboa Travel.

Here are a few tips to help UC San Diego travelers navigate the car rental shortage that developed with the the pandemic. Navigating the rental car shortage is easier when employees know where to turn.

When the pandemic hit and travel came to a standstill, car rental companies sold off a large number of vehicles. As travel began to pick up again, the demand for rental vehicles started to outpace the supply. In order to address the increased demand, rental companies are offering incentives to customers in the form of points, discounts, and other perks.

UC San Diego travelers can benefit from these incentives by taking advantage of the discounted rates offered by rental companies. Travelers should also be aware of the variety of rental options available, including the possibility of renting a car with a mobile app or using a car sharing service.

Booking travel for business or pleasure in Concur means that you're taking advantage of the latest in travel technology and automation, which can help you save time and money.
